

Concussion Management II

Faculty: Alison Dalessandro PT, DPT, NCS
Tim Rylander PT, EdD, MPT, OCS, CSMT, CBIS, PES

Emerging Concepts and Evidence

- Introduction Concussion Management II
- Imaging
- Biomarkers
- Chronic Traumatic Encephalopathy
- Exertion
- Alternative Treatments

Cognitive Fatigue

- Autonomic Dysregulation
- Exercise and Dysautonomia

Cervical Trajectory

- Whiplash Associated Disorder
- Cervical Assessment
- Temporomandibular Disorder
- Summary

Vestibular Trajectory

- BPPV and Head Trauma
- Other Peripheral Vestibular Disorders
- Central Versus Peripheral Vestibular Disorders
- Assessments and Interventions
- Case Studies

Visual Considerations

- Symptoms and Pathways
- Visual Perception
- Eye Movements
- Interventions

Post-Traumatic Headache

- Medications
- Cervicogenic Headache
- Migraines
- Identification and Treatment

Anxiety and Mood Trajectory

- Symptoms
- Prolonged Recovery
- Vision and Sleep
- Identification and Treatment
