SENSEN by SenMetric

Collect quantitative data at the ease of your fingertips with SenSen.

Why you need to add SENSEN to your clinic...

- Reduce denials by adding objective data.
- Evidence-based protocols within SenSen allow you to focus on the patient for qualitative data while the app assesses the quantitative data.
- Increase your patient buy-in for improved arrival rate and visits per eval by showing the patient real-time data to support your plan of care and demonstrate their improvements!

36 Million Americans fall each year
resulting in 3 Million hospital ED visits,
800,000 admissions and 27,000 deaths!
